

# ALTO NG<sup>912S</sup>

from DirectFly UK

ALTO NG is a highly-specified, all-metal, low wing, 600 kg Light Sport Microlight with ultra-safe flight characteristics to suit flight schools, aeroclubs, and recreational pilots. It's also an ideal touring machine with an unrestricted view through the one-piece canopy, a spacious cabin with a large luggage capacity, and standard 100hp Rotax 912ULS powerplant.

Check out the comprehensive list of standard features and upgrades to customise the ALTO to your needs and budget.

### ALTO NG comes complete with the following equipment:

- Rotax 912ULS 100hp with oil & coolant thermostats
- E-Props Durandal, 3-blade propeller
- Electric flaps with automatic pitch trimming
- Electric pitch and roll trim
- Beringer hydraulic brakes with parking brake
- Flight instruments – ASI, Altimeter, VSI, slip indicator
- Engine instruments - RPM, oil temp, oil pressure, coolant temp, fuel pressure, fuel gauges
- 2x USB charging sockets
- ETA switches/breakers
- Single-color exterior paint – user selectable
- Dual stick control
- Fuel tanks 2 x 46 L
- Auxiliary electric fuel pump
- Fuel valve with fuel return to both tanks
- 12V AGM battery
- Tinted, lockable, sliding, wraparound canopy
- Textile interior upholstery and seat belts
- LED lighting of instrument panel
- Cabin heating, air vents
- GA microphone and headset jacks
- Integrated footsteps
